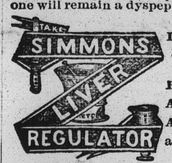
DYSPEPSIA.

Is that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspeptics of active mental power and a bilious temperament are subject to **Sick Headache**; those, fleshy and phlegmatic have **Constipation**, while the thin and nervous are abandoned to **gloomy forebodings**. Some dyspeptics are wonderfully forgetful; others have great irritability of temper.

Whatever form Dyspepsia may take, one thing is certain,

The underlying cause is in the LIVER,

and one thing more is equally certain, no one will remain a dyspeptic who will



It will correct Acidity of the Stomach, Expel foul gases, Allay Irritation, Assist Digestion, and, at the same time

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons Liver Regulator and I feel confident health will be restored to all who will be advised."—WM. PIANOS.

GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, reserved finish—finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL not affected by extremes of climate. This will be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, dries out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $300—slipping away—pity them.

We guarantee our pianos ten years. 200 styles. We have put our prices at lowest bed-rock for Cash.

A $600 Piano for $259.50 ; a $900 Piano for $297 50 ; a $1200 Piano for $375.50 ; a $1500 Piano for $475.50.

Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occasionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

Bare Boughs and Buds.

"Alas, alas, how the north wind grieves!"
Said the black ash tall. "I'm losing my leaves!"

And "Welladay," sighed the elm tree old,
"I stand in a rain of my falling gold!"

And "Oh," cried the maple overhead,
"On the dark ground raidles my robe of red!"

The birch tree shook in a yellow shower,
And glimmered more ghostly every hour.

While the silver poplar whispered loud
As its shimmering leaves joined the flying crowd.

A sound of mourning filled all the land
For the trees grew barer on either hand.

But the little buds laughed on the twigs so brown
That sprang from the branches up and down,

As tucked in safe and glad and warm,
Ready to weather the winter storm,

They waited so patiently and still
Till the wild, cold wind should have worked its will,

And blown the sad skies once more clear,
And wakened from slumber the sweet New Year.

If you look, my child, at the tree top high,
You'll see them clustered against the sky,

The little brown buds that rock and swing,
Dreaming all winter of coming spring!

And if when April comes again,
You watch through the veil of her balmy rain,

You'll see them pushing out leaves like wings,
All crowned with the beauty that patience brings!
—Cecil Thaxter in St. Nicholas.

Startling Scarf Pins.

A member of one of the uptown clubs caused something of a sensation in the smoking room of his club a few nights ago. As he joined a group of gentlemen it was noticed that he wore a unique pin in his scarf. It was a large dog's head made of oxidized silver. Its eyes were tiny diamonds and its mouth was red enamel. While the wearer's friends were looking at the pin and commenting upon it the red mouth of the silver dog opened and a succession of sharp barks issued therefrom. The effect was startling at first, but as the barking continued several members of the club pressed about the owner of the pin, curious to examine "the new trick."

The wearer of the decoration, after enjoying the sensation that he had created for a while, unbuttoned his waistcoat and disclosed a long rubber tube attached to the pin on the under side of the scarf. The tube extended down into one of the pockets of the gentleman's trousers, terminating in a rubber bulb. By repeatedly pinching this bulb the wearer of the pin was able to cause the sounds to issue from the dog's mouth. These trick pins are among the novelties on the counters of jewelry and haberdashery establishments. There are various designs, such as dogs' heads, cats' heads, crying babies, bicycles with revolving wheels and bugles that blow.—New York Times.

Heroic Undertakings.

A devout Russian residing near Archangel, on the coast of the Polar sea, arrived lately in Odessa on his way to the Holy Land, which he proposes to explore from one end to the other. He has made the entire journey on foot and entirely without means, trusting to the support of God and of the human hearts he may move for his sustenance. He eats nothing but bread and salt, and carries no baggage to speak of. The journey of this man is a most wonderful undertaking, considering the wilderness-like condition which for thousands of miles exists in the stretch of country he is traversing.

Another Russian, but of entirely different caliber, has just completed the task of rowing in a little skiff from St. Petersburg to the Caspian sea. He is a gentleman of social standing, and was lionized in every city he touched on his trip. He claims that the distance he actually traveled in his boat is nothing compared to the distance he measured while dancing with fair Russians at the balls arranged in his honor.—Chicago News.

A Monster Relic of the Chicago Fire.

The builders of the new Masonic temple, corner of State and Randolph streets, have a large elephant on their hands in the shape of a fire relic that is by far the biggest thing yet unearthed. The site of Hall & Kimbark's big iron warehouse was at this point at the time of the great fire of 1871, and their immense stock of bar iron melted into one great lump, which sank and imbedded itself into the earth too deep for discovery in ordinary building operations. But when the foundations for this great building were being prepared this mammoth bunch of melted bar iron was unearthed. The mass is estimated to weigh twenty-eight tons, and how to move it is a problem that is puzzling the contractors. It is a curiosity worth seeing.—Chicago Inter-Ocean.

The Lourdes Miracle.

The decision of the congregation of rites that the first apparition of the Virgin at Lourdes be celebrated in the month of February disturbs and displeases many churchmen in Paris. I am told that a large number of bishops hoped for a contrary ruling. There is much jealousy in the French Episcopacy at the sudden rise, owing to the pilgrimages to Lourdes, of the See of Tarbes. It was one of the least important in France thirty years ago. The Episcopal income is higher than that of the archbishop of Canterbury, and all because of the miraculous fountain above which the girl Bernadette claimed to have seen the Virgin Mary. The February commemoration of her vision is to be an annual one.—Paris Cor. London News.

Tulips for the Holland Dinner.

The regular dinner of the Holland society will take place this year at the Lenox Lyceum. Already the Dutch national flower has been set growing for the occasion; 2,500 tulips will be placed upon the table, and these have to be forced in hothouses. Real Dutch pipes, with handles twisted around into a circle, have been ordered from Gouda, in Holland. At the dinner of last year, which was held in the main hall of the Equitable building, there were not accommodations for half of those who wanted tickets, so this year the dinner committee have engaged the Lyceum, and hope that it will not be overcrowded.—New York Tribune.

The Pay Roll of the Sumter.

At a meeting of the Confederate Survivors' association in Atlanta Capt. Frank M. Myers laid before the veterans a correspondence of recent date between his brother, Maj. Henry Myers, of Jacksonville, Fla., and Librarian Charles Herbst, of Macon, in reference to the sale by the latter to the Libby Prison museum at Chicago of the pay muster roll of the Confederate ship of war Sumter, of which Maj. Myers was paymaster. In the letters Maj. Myers pronounces the sale of the relic unauthorized, says he gave it to Mr. Herbst in 1871 only as librarian of the Atlantic library that it might be preserved therein, and he calls upon Mr. Herbst to make restitution to the Veterans' association.

The members of the association, taking the view that this demand makes the price of the document their property, passed a resolution thanking Maj. Myers for the gift, and appointed a committee to make an investigation and take steps toward the recovery of the money. The veterans say they have taken hold of the matter in earnest, and will insist on restitution as long as a chance remains for the enforcement of their claim.—Savannah News.

A Carp's Tenacity of Life.

Mr. H. Yost, Jr., of this city, tells a fish story that is worthy to rank with the classics, only that there are any number of witnesses to prove its truth, and the fish still lives.

"Friday morning," says Mr. Yost, "I bought a number of fish, among them a handsome German carp, the first of the kind I had seen this season. I placed them all on a marble slab and covered them with ice to keep them cold and moist. Later on I hung up the carp, as he was on a split or string such as fishermen usually use in bunching fish. While handling him I noticed a slight convulsion pass through his body and a movement of his tail.

"I was naturally surprised, for I knew that carp had been caught at least forty-eight hours before, but on a closer examination I noticed unmistakable signs of life, and I placed him in fresh water. In about two hours he began to breathe, and then I transferred him to a large tub, where he has continued to improve so rapidly that now he swims about as stout as any carp in the Potomac river."—Washington Star.

December in San Francisco.

If any resident of the eastern states visited Golden Gate park Christmas he must have been forcibly struck with the striking contrast it presented to what would be seen that time of year in any eastern pleasure ground. The air was mild and pleasant and invited outdoor exercise. The recent rain had freshened the flowers, trees and grass, causing brighter colors and more vivid tints. Thousands of men, women and children sat during the afternoon in the open air listening to the music of the band or reclined on the greensward, at ease with themselves and the world. Children filled the swings, rode on the merry-go-round or ate popcorn on the grass. Hundreds of gay turnouts speeded along the broad driveways, the occupants unincumbered by heavy clothing. The trees and lawns rioted in luxuriant verdure, while the flower beds were aglow with a wealth of color.—San Francisco Alta.

Society and Wall Street.

Wall street's intimate relationship with society has often been denied. But the recent developments socially have shown that the dependency of one upon the other is almost complete. The enormous depression of values down town and the animated and erratic condition of the market resulted in the abandonment of literally scores of dinner parties and the postponement of many entertainments in that portion of New York which has its center on Murray Hill. Now that things are quiet again in Wall street the theatres are beginning to fill up, the restaurants are crowded, and there are numberless announcements of new parties and dances.—New York Sun.

Unattractive Chirography.

Glancing over the big square envelopes now traveling through the mails, with the addresses sprawled in fashionable English writing up and down instead of across the surface, one stops to wonder who invented such an ugly and inconvenient method of direction to puzzle postmen, and make their recipients' heads swim trying to decipher them. In bold, black chirography, the "To" sits in the lower left hand corner, with name running to right, and street, town and state artistically and irregularly distributed over the remainder of the envelope. It is a change, but that is about all one can say in its favor.—Illustrated American.

John Bancroft, a man who was a tramp eight years ago, and who died recently at Portland, Ore., bequeathed all his property, estimated at $15,000, to a woman in Sacramento, Cal., who once gave him a night's lodging and breakfast and $1 besides, together with some good advice.

William Archer's criticism on Mrs. Langtry's Cleopatra is everywhere pronounced to be the most severe on record. Here it is: "Purple patches of Shakespeare swimming in a prismatic scintillant maelstrom of spectacle."

What we know as peers of England are not the only hereditary functionaries in Great Britain. The court of queen's bench has just been led to decide that there are a certain number of hereditary pawnbrokers.

Some of the best dinners in Washington last year were given by Representative Flower, of New York. He dined nearly every member of congress, and the result has been a great boom to his popularity.

Near Indianapolis, Ind., in Sugar Creek township, a panther has been committing serious depredations. At last reports he had been driven to the woods and was surrounded by "800" farmers.

The Census and City Populations.

The population of the United States has increased between 1880 and 1890 from 50,000,000 to 64,000,000, or about 26 per cent. Deducting the urban population, the increase of rural population is found to be only 8 per cent., while the increase of the urban population is more than 57 per cent. This classification of urban population includes only cities of 8,000 inhabitants and upward. If the classification should embrace cities of 4,000 inhabitants and upward it would undoubtedly appear that the rural population had decreased during the decade, while the total increase would be in the cities. This general result has been brought about notwithstanding the immense increase in population in the rural districts in extreme western states, such as the Dakotas, Minnesota, Nebraska, Kansas, Arkansas and Texas.

The following table shows the increase of the total population of several states and the increase of the city population:

	Total Increase, 1880-1890.	Increase in City Population.
Maine	11,325	14,290
Massachusetts	400,000	250,000
Connecticut	110,000	105,000
Rhode Island	65,000	49,000
New York	1,016,000	763,000
Illinois	800,000	700,000

The percentages of the increase of city population to the whole increase of population between 1880 and 1890 in several states are as follows: In Maine there was an actual decrease of rural population, the increase in cities being more than the total increase in the state. In Massachusetts the increase in cities was 60 per cent. of the whole increase; in Connecticut 95 per cent.; in Rhode Island 70 per cent.; in New York more than 75 per cent.; in Pennsylvania nearly 50 per cent.; in Ohio more than 50 per cent.; in Illinois 87 per cent.—William M. Springer in Forum.

Protection for Retailers.

A novel idea has been presented to the English trade to meet the competition from manufacturers who have stores for retailing their own goods. It is proposed to form a company with a capital stock of $100,000. This company will pay cash for the goods, which will be resold to shareholders at invoice prices, plus a charge of 5 per cent. to cover expenses. The object of the company is that the shareholders, who are retailers, will be able to buy all classes of goods at the lowest wholesale prices for cash, without reference to the quantity bought.

By this plan of co-operative buying it is figured that a great saving can be made over the regular way of buying in small lots by retailers, who lose the trade discounts and other items, which it is estimated make a total of about 15 per cent. The multiple shop competition is said to be bearing heavily on the small retailers, and some plan of this kind is necessary if they are not to be crowded out. The idea is an excellent one, but whether it can be made a practical success or not remains to be seen.—New York Commercial Advertiser

Mr. Hatch's Dream.

Mr. William H. Hatch, of this city, has a son named Roland Hatch. Twenty years ago he left home for the west, and for many years his whereabouts was unknown to his parents. It has been six years since he wrote his father. Mr. Hatch is now ill. One night recently he dreamed that he was with his son in the state of Michigan; that his son was in a camp, numbered 40, with a gang of loggers. In the morning Mr. Hatch told his wife the dream. The next mail brought a letter from the long absent son stating that he was with a logging crew in Michigan, and everything about him tallied with his father's dream. The young man has been sent for to come home.—Belfast (Me.) Journal.

"Too Much Gun."

The Indian is willing to take his chances with a soldier's musket or carbine, knowing that they shoot all over the country, but when the boys get to work with a Hotchkiss or Gatling gun then the redskin takes a trip. The scream of a shell makes all his teeth sore, and when one bursts and lets a hundred bullets loose at once he can't tell which way to dodge.—Detroit Free Press.

Two Bullets.

Only last month boys who were searching over the old battlefield at Gettysburg for relics discovered two musket balls with their points so thoroughly telescoped that they could not be separated. There is but one explanation of the freak: they had met in midair and were welded by the friction caused by the concussion.—St. Louis Republic.

While cutting a big cypress tree near Astor, Fla., John Wilson found it occupied by a living alligator seven feet long. As the opening in the tree was not half large enough for the animal to get through, the presumption is that it crawled in while quite young and lived on the other animals and reptiles that sought refuge there.

Baron Hirsch proposes to send to the Argentine Republic some half million of the Jewish victims of Russian persecution. President Pettigrini offers an asylum and active help to the thrifty immigrants, and it is said that Baron Hirsch is ready to spend $20,000,000 to carry out his plan.

By a new military law in France all clergymen under 35 years of age are required to serve in the army. In consequence of this the Capuchin fathers are leaving their monasteries in large numbers and emigrating to Canada and the United States.

All the forts and military establishments of Belgium have been connected with Antwerp by telephone. Special precautions have been taken to prevent an enemy tapping the wires in war time. The instrument used is a Dejongh microphone.

During the illness of the late Emperor Frederick it became so much the fashion to consult Dr. Morell Mackenzie that his professional income rose to an average of $1,200 a day.

SONOMA INDEX - TRIBUNE.

SATURDAY, FEBRUARY 7, 1891.

Vermont's Centennial.

Bennington is looking forward to a gigantic celebration next summer. The act of the legislature providing for a celebration of the hundredth anniversary of the admission of Vermont into the Union, and for the dedication of the Bennington battle monument, Aug. 19, 1891, makes the governor, with the lieutenant governor, speaker of the house, state treasurer and secretary of state, a committee of five, who shall make the necessary arrangements and have general charge and management of the ceremonies attending the dedication of the monument and the centennial celebration.

The committee shall invite in the name of the state of Vermont the national government and the states of New Hampshire and Massachusetts to unite with Vermont in the dedication and celebration. Furthermore, the committee shall issue in the name of the state all invitations to invited guests, and shall call the annual encampment of the National Guard of Vermont. It is discretionary with these officials what amount of money to spend. The responsibility of the celebrations is on the state and not the battle association nor the people of Bennington,

The battle of Bennington was fought Aug. 16, 1777, but as Aug. 16 next year will fall on Sunday it was deemed best to have the celebrations in the middle of the week for the convenience of those who may come from a distance, and for this reason Wednesday, Aug. 19, was designated by the legislature.—Burlington Free Press.

Eugenie's Cousin Casafuerta Dead.

Our Paris correspondent writes that a cousin of the Empress Eugenie, the Marquis de Casafuerta, has just died at the Chatean d'Orfasnir, in Touraine. His father, who was said to be only second in wealth to the Duke of Ossuna, lived for many years in what might be termed a domain, the wall of which skirted one side of the Rue des Ecuries d'Artois, and a part of what in his time was the Rue de l'Oratoire. During the empire Queen Isabella, to be agreeable to the Empress Eugenie, arranged that the late marquis was to be permanently attached to the Spanish embassy in Paris, and he was one of the most influential persons belonging to the inner circle of the empress.

He was charged, though quite a young man, with the confidential negotiations between the emperor and Marshal Narvaez for the sending of a Spanish military force to Rome to replace that which France kept at the Eternal City to protect the pope. But carefully as the secret of Queen Isabella's consent was kept it leaked out, and Prince Bismarck and Signor Rattazzi put their heads together, and by getting her dethroned defeated the scheme.—London News.

The Bank of France's Big Loan.

The recent loan of 75,000,000 francs in gold by the Bank of France to the Bank of England is still the object of acrimonious criticism. Here is how the 75,000,000 was transferred from the lender to the borrower. The loan was made in ingots of fine gold at the market rate on the day of transfer. The Bank of England was obliged to send to Paris an agent supplied with an English treasury bond signed by the first lord of the treasury as a guarantee of reimbursement.

The ingots were delivered in three installments of 25,000,000 each, on three different days, in the court yard of the Bank of France, to the English representative, and from that moment the precious metal was entirely at the latter's risk. When the day of payment arrives—three months hence, if no renewal is asked—the loan must be repaid at the Bank of France, either in ingots or in pounds sterling, valued at their weight in fine gold.—Paris Cor. Epoch.

Increase in Telegraphic Figures.

The increase in the ocean cable and land telegraph facilities during the decade is again indicative of the growth of the city of New York, for the entire system is tributary to and greatly dependent upon the metropolis. In 1880 there were 185,645 miles of cables in existence. In 1890 there were 283,917. The Western Union and Postal companies now control 778,997 miles of wires, against a total of 233,534 in 1880. There were 10,077 offices in operation during 1880, but their number has now been increased to 22,382. The total number of messages sent over the wires in 1880 was 39,512,904, but the total is now estimated for 1890 at 83,784,627. The receipts for 1880 were $16,827,948. Last year they were $34,783,282. The profits in 1880 were $7,383,379, but during the year 1890 they are estimated at $10,123,293. The expenses for 1880 were $8,498,293, while for last year the estimate is $18,740,609. —New York World.

Reform in Smoking.

Some New Haven smokers have started a tobacco moderation society, members being limited to three cigars a day. They have to deposit daily a sum equaling what they have been accustomed to spend on tobacco, minus the value of the three cigars. And in case a member smokes more than three cigars on any day he forfeits all the money he has deposited. Those who adhere to the agreement for one year will share equally in the fund created by the forfeitures. This is very good as far as it goes, but it would seem as though there ought to be some prize for the members who smoke less than three cigars a day.—New York Tribune.

Mixed Relationship.

Marshal Hopper, youngest son of Mr. J. H. Hopper, and Miss Mary Alderman, daughter of Mr. Thomas Alderman, were married Thursday, the Rev. Wilson Johnson officiating. Mr. Thomas Alderman is Mr. J. H. Hopper's son-in-law, Mr. Alderman's second wife being a Miss Hopper. Miss Mary, the handsome bride, is his first wife's child. Thus it will be seen that Mr. Hopper's son is son-in-law of his father's son-in-law, and is also son-in-law of his own brother-in-law, etc.—Quitman Press.

JENKS' DREAM.

Jenks had a queer dream the other night. He thought he saw a prize-fighters' ring, and in the middle of it stood a doughty little champion who met and deliberately knocked over, one by one, a score or more of big, burly-looking fellows, as they advanced to the attack. Giants as they were in size, the valiant pigmy proved more than a match for them. It was all so funny that Jenks woke up laughing. He accounts for the dream by the fact that he had just come to the conclusion, after trying nearly every big, drastic pill on the market, that Pierce's Pleasant Purgative Pellets, or tiny Sugar-coated Granules, easily "knock out" and beat all the big pills hollow! They are the original and only genuine Little Liver Pills.

Beware of Imitations, which contain Poisonous Minerals. Always ask for Dr. Pierce's Pellets, which are Little Sugar-coated Pills, or Anti-bilious Granules. One a Dose.

SICK HEADACHE,

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pellets. They are gently laxative, or strongly cathartic, according to size of dose. Smallest, Cheapest, Easiest to take. 25 cents a vial, by druggists.

and a fierce storm of cutting sleet which strikes the face like a thousand needles. Wind forty miles an hour. You say a man couldn't stand such exposure? No, he couldn't, without just the proper clothing. And there's only one outfit that can keep a man both warm and dry at such a time, and that is the "Fish Brand Slicker." They are guaranteed storm-proof, waterproof, and windproof. Inside one of them, you are as much out of the weather as if indoors. They are light, but warm. Being re-enforced throughout, they never rip; and the buttons are wire-fastened. No railroad man who has once tried one would be without it for ten times its cost. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. "Seeing is Believing."

And the best lamp ever made, like Aladdin's of old, a "wonderful lamp!" A lamp absolutely non-explosive and unbreakable, which gives a clear, soft, brilliant white light of 85 *candle power!* Purer and brighter than gas light, softer than electric light, more cheerful than either! That lamp is

"The Rochester."

And with it there is no smoke, no smell, *no broken chimneys*, no flickering, no sweating, no climbing up of the flame, no "tantrums" nor annoyance of any kind, and it never needs trimming. Its founts (oil reservoirs) being tough rolled seamless brass, with central draft, it is absolutely unbreakable, and as *safe as a tallow candle.*

Only five years old, and *over two millions of these lamps in use.* It must be a GOOD lamp to make such a telling success. Indeed it is, for lamps may come and lamps may go, but the "Rochester" shines on forever! We make over 2,000 artistic varieties,—Hanging and Table Lamps, Banquet, Study, Vase and Piano Lamps,—every kind, in Bronze, Porcelain, Brass, Nickel and Black Wrought Iron.

Ask the lamp dealer for it. Look for the trade-mark stamp: "THE ROCHESTER." If he hasn't the *genuine* Rochester and the style you want, or if no lamp-store is near, send to us for free illustrated catalogue (and reduced price-list), and we will box and send you any lamp safely by express, right to your door.

Depredating Hunters.

One day last week several hunters, supposed to be from the city, entered the premises of Col. Hooper, and not satisfied with tearing down fences and banging right and left with their shot-guns at every stray bird that happened in sight, raided his orange and lemon grove and stripped the trees of a quantity of fruit. When expostulated with by an employee they became very abusive and refused to leave the ranch until they had filled the pockets of their hunting coats with the fruit. For the most part our farmers are exceedingly forbearing with hunters, but of late things have come to such a pass that forbearance has about ceased to be a virture with them. Hunters and others caught trespassing on many of our farms without permission of the owners will in future run the risk of arrest and prosecution. In another column Col. Hooper gives a timely warning to trespassers, and sportsmen will do well to steer clear of his premises, as he will take no excuse from persons caught hunting and trespassing on his farm without his permission.

Card of Thanks.

ED. SONOMA INDEX-TRIBUNE:

The undersigned desires through your paper to thank, on behalf of the members of the family of the late General M. G. and Mrs. Vallejo, the Sonoma Band and the choir of St. Francis' church together with all the people of Sonoma and other localities, for their kind attention, sympathy and many other proofs of kindness and respect shown toward the venerable and beloved dead.

The members of the family of the late General and Mrs. Vallejo truly appreciate and will ever cherish in their memories the many warm and sincere marks of friendship, esteem and respect in which they always held our dear and justly beloved parents. It is a consolation for us which will in our present loss help to sustain our broken spirits and give us courage to try and bear in the future this last affliction.

A GREEN COUNTRY GIRL.

Shellville, February 7, 1891.

Lee Bulotti of this place was married to Miss Gena Bulotti of San Rafael at the residence of A. Bulotti on last Thursday evening. Justice Cheney tied the nuptial knot. The wedding feast was followed by dancing and other amusements. During the evening the young couple were unmercifully charivaried. Mr. and Mrs. Bulotti will take up their residence in Sonoma.

Burglars effected an entrance into the residence of Judge Shattuck of Petaluma, son of D. O. Shattuck of this place, Monday morning at 4 o'clock, but were frightened off by the Judge, who had been awakened by the noise they created while ransacking the dwelling for valuables. The roobers secured very little booty.

Now is the time to buy residence lots in Sonoma. If you want a fine lot 50x150, on one of the best residence streets in Sonoma, apply at once to H. H. Granice, real estate agent. These lots are now offered for $550 each. This is the best offer ever made in this place for residence property.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

An Explanation from Hon. J. K Luttrell.

ED. INDEX-TRIBUNE:

In your issue of to-day is published an item unless explained is calculated to do me an injustice, viz: your reference to the suit of McCartney vs. J. K. Luttrell in the Superior Court. No such case exists.

The suit, if it can be called a suit, is an agreed case to determine the title to a lot of wine belonging to the Drummond estate and claimed by McCartney. I cannot, as administrator of the estate, deliver the wine to Mr. McCartney without a judgment or order of the court. I have not one cent's interest financially in the matter. Respectfully. J. K. LUTTRELL,

Eczema all His Life.

When an infant my body broke out all over with an eruption of rash, which became more aggravated as I grew older. From early childhood until I was grown my family spent a fortune trying to cure me of the disease. Every noted physician in our section was tried or consulted. When I became of age I visited Hot Springs, Ark., and was treated there by the best medical men, but was not benefited. After that, under the advice of a noted specialist, I tried the celebrated Clifton Springs, New York, without any good results. When all things had failed I determined to try S. S. S., and in four months was entirely cured. The terrible Eczema was all gone, not a sign left; my general health built up, and I have never had any return of the disease. I have since recommended S. S. S. to a number of friends for skin diseases, eruptions, etc., and have never known of a failure to cure.

Disorders which Affect the Kidneys

Are among the most formidable known. Diabetes, Bright's disease, gravel and other complaints of the urinary organs are not ordinarily cured in severe cases, but they may be averted by timely medication. A useful stimulant of the urinary glands has ever been found in Hostetter's Stomach Bitters, a medicine which not only affords the requisite stimulus when they become inactive, but increases their vigor and secretive power. By increasing the activity of the kidneys and bladder, this medicine has the additional effect of expelling from the blood impurities which is the peculiar office of those organs to eliminate and pass off. The bitters is also a purifier and strengthener of the bowels, an invigorant of the stomach, and a matchless remedy for biliousness and fever and ague. It counteracts a tendency to premature decay, and sustains and comforts the aged and infirm.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds and at the time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is to-day enjoying good health. If you have any Throat Lung or Chest Trouble try it. We guarantee satisfaction. Trial bottle free at Ed. Wegner's Drug-store.

Electric Bitters.

This remedy is becoming so well know and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. Apurer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cur all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded. Price 50 cts. and $1 per bottle at E. Wegner's drug store.

Diphtheria has been raging in various parts of this valley for several weeks past. Dr. Davis has successfully treated a number of cases as has likewise Dr. Vance. So far there have been no deaths from the disease. At the present time both doctors have several diphtheria patients on hand, mostly small children.

Miss Annie Pemberton and Miss Tillie Justi had a narrow escape from serious injury while out riding in a buggy last Monday. The young ladies had reached a point near the Bates farm when the horse shied very suddenly at a cow lying down in the road. The buggy became cramped and was tipped over. The young ladies were thrown violently to the ground and were more or less bruised and shaken up. The animal then ran away, completely wrecking the buggy.

Giovanni Minoggio, a native of Italy, aged 33 years, died in this place last Monday morning from pneumonia after a brief illness. Deceased was a member of the Sonoma Volunteer Fire Company and also of Sonoma Grove, No. 75, U. A. O. D. His funeral took place on Tuesday under the auspices of the Druids. The members of that organization and the firemen turned out and escorted the remains to Mountain Cemetary. Mr. Minoggio was a hard-working, industrious man and leaves a wife and several small children to mourn his sudden and untimely taking off.

A team of horses attached to a heavy basalt block wagon backed off the grade near Manuel's block quarries east of town last Monday, and went crashing down the hill. The horses escaped with slight injuries, but the wagon was almost totally wrecked. The accident was caused by the break beam giving away. The owner and driver of the team, Harvey Manuel, luckily escaped injury as he had just dismounted from the high seat of the wagon as it went over the grade. This is the third accident that has happened to our young friend the past two months, and it is a wonder that he is alive. He has been thrown from a wagon by a runaway team and knocked senseless, fell down a cliff, a distance of 75 or 80 feet, and now comes the accident of last Monday, in all of which he has escaped with but slight bruises.

McFADDEN.

The Festive Coachman Sent to State Prison for Two Years for Bigamy.

His Sonoma Wife is Arrested on a Similar Charge.

A little over a year ago there appeared in Sonoma a coachman named Patrick McFadden. He secured a position at Buena Vista Park and shortly thereafter made a trip to San Francisco and on his return brought back with him a young and handsome bride. He domiciled his wife in Sonoma in a small and neatly furnished cottage on one of the residence streets of the town and things went on serenely with the young couple for several months. One day, however, an officer arrived in town and arrested McFadden on a charge of bigamy and took his prisoner to San Francisco. The charge had been made at the instigation of Mrs. McFadden of Philadelphia by whom he had four children, and who had followed him to this State. It came out on his trial that he had deserted these about 18 months ago and came to San Francisco, where, without securing a divorce from his first wife he met and married a young girl named Ellen O'Brien, and as before stated brought her to Sonoma.

His first wife shortly after the arrest, on McFadden's promise to return to his old home and "go and sin no more," repented and refused to prosecute him and he was discharged from custody. The scoundrel, however, as soon as he had regained his freedom did just the opposite. He again deserted his Philadelphia wife and took up with his Sonoma spouse, who in the meantime had removed to Oakland.

"Hell hath no fury like a women scorned," and it did not take Mr. McFadden very long to agree with Mr. Shakespere in that regard. The result of this last act of perfidity on the part of the bigamist coachman was too much for the long-suffering and wronged wife and like an avenging nemesis she has been on his track ever since. Lately she again caused her truant husband's arrest and after a fair trial the wretch has been sent to San Quentin for two years.

On Tuesday last another episode occurred in connection with this remarkable affair. It was the arrest of the Sonoma wife in Oakland on complaint of the Philadelphia wife, charged with bigamy. The latter claims that Ellen O'Brien was cognizant of McFadden having a wife and children in Philadelphia when she married him. Whether this be true or not it is a most singular arrest. The Sonoma wife now languishes in the City Prison at San Francisco awaiting trial.

MRS. VALLEJO.

She is Laid to Rest Beside Her Late Husband.

The funeral of the late lamented Mrs. General Vallejo took place last Sunday. Promptly at 10:30 A. M., escorted by the Sonoma Brass Band, members of the Pioneer Society, pall bearers and many relatives and friends, the remains were borne from the home which had been occupied and loved by Mrs. Vallejo for many years to St. Francis' church. Arriving at the church the casket was tenderly lifted and borne down the aisle by the pall bearers, grandsons of the deceased lady, to the altar, where High Mass was celebrated, the choir singing in harmony with the sad occasion. In the course of the funeral sermon Rev. J. J. Sullivan spoke in a touching manner of the many virtues and grand traits of character of Mrs. Vallejo. Her deeds of charity and noble worth would long be remembered by those who knew and loved her best. The Rev. Father closed his remarks by saying that she had died a firm believer in the faith that she had cherished from childhood. Many handsome floral pieces were sent by friends as a last token of their love for this good and noble lady.

After the ceremonies in the church had been concluded, the remains were returned to the hearse and the funeral procession wended its way up Napa street to the strains of sad and solemn martial music. The cortage passed around the Plaza which had been the scene of so many stirring events during the lifetime of her whose inanimate form was now being borne to its final resting place on the mountain overlooking the beautiful valley which had been given by her illustrious husband to the Americans nearly fifty years ago. Upon arriving at Mountain Cemetary the hearse drew up to the vault where the remains of her honored husband General Vallejo lie, and the dead were left to rest side by side in the silent tomb.

THE CITY TRUSTEES.

Everything Going on the Streets to the Neglect of Other Improvements.

A Donation for the Plaza by a Generous Lady.—The Firemen "Get There."

The City Trustees met last Wednesday evening to transact the regular monthly business of the city, the principal part of which was devoted to examining bills for street work and drawing warrants for paying the same.

After the reading of the minutes of the previous meeting, Trustee Weyl, Chairman of the Fire and Water Committee, reported that he had contracted for two fire hydrants at $25 each. He also asked for further time to report on the question of how much, if anything, the city shall pay for water used, and to be used for extinguishing fires.

The Street Committee reported progress.

The financial report of Clerk Breitenbach for the six months ending December 31, was reported by the Finance Committee to be correct.

Trustee Litzius was allowed more money for street repairs. This time it was the modest sum of $15.

C. W. Engelbert appeared before the Board and complained of the bad condition of the sidewalk in front of Jas. McMackin's property on Napa street. His complaint was referred to the Street Committee.

Trustee Weyl, on behalf of the Board of Health, reported two stagnant pools of water on Spain street. As usual, where the health of the town is concerned, no action was taken, and Mr. Weyl's breath was wasted. It might take a few dollars out of the street fund, you know.

Trustee Bulotti complained about the smoke house in the rear of the old bank building as being a menace to the safety of the town from fire. The City Marshal was instructed to examine the same and see that it was constructed to conform with the fire ordinance.

H. H. Granice appeared before the Board and tendered to the Plaza Committee $259, a donation from Mrs. Robt. C. Johnson of Buena Vista Park, to be expended in planting trees in the Plaza and otherwise beautifying the same.

On motion of Trustee Weyl the gift of the generous doner was received with thanks by the Board.

R. A. Poppe, Secretary of the committee to procure right of way for the S. F. and N. P. Railway tendered the Board $30.70, balance of funds remaining in his hands, subject to a claim of $10 for printing done by the Sonoma INDEX-TRIBUNE. On motion the money was accepted and turned over to the City Treasurer.

H. H. Granice, as a Committee of One from the Sonoma Volunteer Firemen, again appeared before the Board to secure that appropriation of $100 for uniforms so yearned for by the committeeman and so long deferred by the Trustees. He stated that the firemen had complied with all the conditions that had been exacted by the Board, and wished them to come to a final conclusion in the matter. He was tired and desired the money to the end that he might report to his fellow firemen at their next meeting and be discharged as a committeeman after a service of seven long and weary months. Another attempt was slyly made to put him off by subterfuge, but was nipped in the bud by a motion from Trustee Weyl, which received a second from Trustee Wegner, that a warrant for $100 be immediately drawn in favor of the firemen, which motion prevailed.

The following bills for the month of January were examined and ordered paid:

F. Breitenbach, salary	$ 25 00
G. W. Sparks, salary	15 00
Chas. Dal Pogetto, curbing	2 75
G. Engler, painting	10 00
S. Reve, street work	8 40
J. Linehan " "	2 85
W. Fowler, " "	10 00
W. Bordwell " "	91 50
J. Weems, " "	51 00
W. Parish, " "	63 00
V. Jansen, " "	20 00
J. Bulotti, " "	6 00
A. Bulotti, " "	16 00
Total	$320 22

The Board then adjourned.

Sonoma Odd Fellows Banqueted.

On Thursday evening last the Napa Odd Fellows entertained a delegation of visiting brothers from Sonoma Lodge, No. 28, with an exemplification of the work of the order and a sumptuous banquet. The following Sonoma Odd Fellows were present: Geo. Engler, J. G. Marcy, John Miller, D. H. Twing, Wm. Stone, C. H. Wise, M. Muldry, B. P. Norris, Jas. H. Albertson, John Johnson, A. Harrison and R. B. Lyon.

A gentle rain fell throughout the valley last Sunday morning. It came just in the nick of time. It was sufficient to moisten the ground, which had dried up considerably owing to a dry north wind which prevailed several days last week.

Our Postoffice has been moved from the "Republican" building to the Southern Pacific depot, where its destinies are now presided over by M. F. Mullen in a very efficient manner.

Postmaster Mullen has just received from Baltimore, Md., a beautiful Postoffice cabinet to meet the demand of the increasing business at his office. It is a perfect beauty, painted a bright green and must be seen to be appreciated.

T. B. Holmes and his family left Tuesday for New London, Connecticut. Several of Mr. Holmes' well-wishers were at the train to wish him a *bon voyage*. We hope wherever the genial, big-hearted Tom will locate that fortune will shower her choicest blessings on him with a lavish hand.

Last night ten one-hundredths of an inch of rain fell at this place, making for this season a total of 7.01 inches. This time last season the record showed a rainfall of 44.88 inches. To-day the wind is blowing dryly from the north and it looks as if the threatened storm had blown over for the present.

John Francis Mullen, who occupies a responsible position with the Cliff and Ferries Railroad of San Francisco, came up on a business trip Monday. He was much pleased with our valley and his experiences while here were of the pleasantest kind. He says he saw more pretty girls in the town of Sonoma than he ever saw before in a city of its size.

The INDEX-TRIBUNE has been in good demand in this burg for the past two weeks. Over fifty people were all anxious to see it at the same time and only one copy of the journal visible. Better come over some fine afternoon, brother Granice, and rustle for a larger circulation on this side of the creek. Bring a sample of Grothaus' cough medicine in your inside pocket and we will forgive you for your past transgressions in getting in every once in awhile and trying to give this promising young city its *coup de grace*.
